HOW TO ORDER
Order by quoting basic housing designation combined with required suffixes
Cast iron is standard. SG iron is available on request. Specity bearing number
if fixing rings required.

## SUFFIXES

A - closed cover
TA - $V$ ring seals
TC - Felt seals
LS - Labyrinth Seals
LST - Taconite Seals

## SB500 SERIFS

[^0]
[^0]:    Dimensions L2, L3 apply to TA Type also. Dimension L1 applies to LS Type Also. The SB Series is the original imperial light duty standard. All dimensions in the table are in inches. It is possible to use this series for metric shafts also. For new designs it is preferable to use the Australian Standard WSB Series.
